

IMPORTANT SAFETY INSTRUCTIONS

ATTENTION: ALL SAFETY AND OPERATING INSTRUCTIONS SHOULD BE READ BEFORE OPERATING APPLIANCE. ALL OPER-ATING AND USE INSTRUCTIONS SHOULD BE FOLLOW-ED WHEN OPERATING THE APPLIANCE. HEED AND ADHERE TO ALL WARNINGS ON THE APPLIANCE AND IN THE OPERATING INSTRUCTIONS. RETAIN ALL SAFETY AND OPERATING INSTRUC-TIONS FOR FUTURE REFERENCE.

WATER & MOISTURE - DO NOT USE THE APPLIANCE NEAR WATER; IE. BATHTUB, WASHBOWL, KITCHEN SINK, LAUNDRY TUB, WET BASEMENT OR SWIMMING POOL.

VENTILATION - DO NOT SITUATE THE APPLIANCE SO THAT ITS LOCATION OR POSITION INTERFERES WITH ITS PROPER VENTILATION. FOR EXAMPLE, THE APPLIANCE SHOULD NOT BE SITUATED ON A BED, SOFA, RUG OR SIMILAR SURFACE THAT MAY BLOCK THE VENTILATION OPENINGS. THE APPLIANCE SHOULD NOT BE PLACED IN A BUILT-IN INSTALLATION, SUCH AS A BOOKCASE OR CABINET, THAT MAY IMPEDE THE FLOW OF AIR THROUGH THE VENTILATION OPENINGS.

HEAT - SITUATE THE APPLIANCE AWAY FROM HEAT SOURCES SUCH AS RADIATORS, HEAT REGISTERS, STOVES OR OTHER AP-PLIANCES (INCLUDING AMPLIFIERS) THAT PRODUCE HEAT.

POWER SOURCES - CONNECT THE APPLIANCE ONLY TO A POWER SUPPLY TYPE DESCRIBED IN THE OPERATING INSTR-UCTIONS OR MARKED ON THE APPLIANCE.

CALIFONE

GROUNDING OR POLARIZATION - PRECAUTIONS SHOULD BE TAKEN SO THAT THE GROUNDING OR POLARIZATION MEANS OF THE APPLIANCE ARE NOT DEFEATED. POWER CORD PROTECTION - POWER SUPPLY CORDS SHOULD BE ROUTED SO THAT THEY ARE NOT LIKELY TO BE WALKED ON OR PINCHED BY ITEMS PLACED UPON OR AGAINST THEM, PAY-ING PARTICULAR ATTENTION TO CORDS AT PLUGS, CONVENIENCE RECEPTACLES, AND THE POINT WHERE THEY EXIT FROM THE APPLIANCE.

CLEANING - THE APPLIANCE SHOULD BE CLEANED ONLY AS RECOMMENDED BY THE MANUFACTURER.

NON USE PERIODS - UNPLUG THE APPLIANCE POWER CORD FROM THE OUTLET WHEN LEFT UNUSED FOR A LONG PERIOD OF TIME.

OBJECT & LIQUID ENTRY - CARE SHOULD BE TAKEN SO THAT OBJECTS DO NOT FALL AND LIQUIDS ARE NOT SPILLED INTO THE ENCLOSURE THROUGH OPENINGS.

DAMAGE REQUIRING SERVICE - THE APPLIANCE SHOULD BE SER-VICED BY QUALIFIED SERVICE PERSONNEL WHEN: (A) THE POWER SUPPLY CORD OR THE PLUG HAS BEEN DAMAGED (B) OBJECTS HAVE FALLEN OR LIQUID HAS BEEN SPILLED INTO THE APPLIANCE (C) THE APPLIANCE HAS BEEN EXPOSED TO RAIN (D) THE APPLI-ANCE DOES NOT APPEAR TO BE OPERATING NORMALLY OR EXHIB-ITS A MARKED CHANGE IN PERFORMANCE (E) THE APPLIANCE HAS BEEN DROPPED OR THE ENCLOSURE DAMAGED.

SERVICING - THE USER SHOULD NOT ATTEMPT TO SERVICE THE APPLIANCE BEYOND THAT DESCRIBED IN THE OPERATING INSTRUCTIONS. ALL OTHER SERVICING REFER TO A QUALIFIED SERVICE PERSONNEL.

PI30/PI39 Series Field Array Speaker Owner's Manual

Thank you for purchasing this PI30/PI39 Series Field Array Speaker.

We encourage you to visit our websites, www.califone.com and www.califonepro.com, to register your product for its warranty coverage, to sign up to receive our newsletter, download our catalog, and learn more about the complete line of Califone audio visual products, including portable and installed wireless PA systems, multimedia players and recorders, headphones and headsets, computer peripheral equipment, visual presentation products and language learning materials.

Unpacking

Check carefully for damage which may have taken place during transit. Report any damage claim directly to the freight carrier immediately. If there is any damage, save the product and packaging for inspection by the carrier's claim agent. Notify your dealer of the pending claim.

Warranty Registration

Please register for your 6-year warranty online at www.califone.com to activate your warranty.

Service Repairs

Should your unit require repair contact the dealer or Califone Service Department at: (800) 722-0500 to obtain a Return Authorization number. After receiving the RA, ship the unit to Califone prepaid. Collect shipments will be refused.

Setup and Operation for Powered Array Speakers (PI39 and PI30-PS)

Power Plug the power adapter into a standard AC outlet and the DC plug into either of the DC jacks on the rear of the speaker.

Microphone

For use with a cabled microphone, plug the mic into one of the 1/4" phone jacks before turning on the power. Turn the power ON (the red LED will light) and adjust the volume to the desired level while speaking into the microphone.

Line-In

Two pair of RCA jacks are provided to connect audio from CD, LCD Projector or other audio sources. The Left and Right channels are "summed" because the speaker system is monaural.

Fixed and Variable Line Outs

Both the PI39 and PI30-PS have fixed and variable volume line out features. With these two features, you can not only daisy chain additional speakers for wider audio distribution, but also support functioning of an independent system (supporting special needs students for example.) Both line outputs are the same audio mix as what's being output by the speaker itself. Which output is used depends on where you prefer to control the volume from.

Fixed The fixed line output level is not affected by the main volume control. **Variable** The variable line output level varies with the volume control setting.

Tone Control

The tone control would normally be set at 12 o'clock and will have little effect when using a microphone. When playing music turning the control clockwise will increase the treble, while turning counter clockwise will increase the bass.

LED Indicators

There are two LED indicators behind the speaker grille. Red indicates that there is a UHF transmission signal from the microphone. The green lights when audio is being transmitted.

PI39 16-Channel UHF Powered Speaker Only

The PI39 can receive wireless audio from any 900MHz Califone UHF transmitter (PA919SD, PA919, and wireless mics).

Wireless Receiver

If using a Califone wireless transmitter, first make sure the transmitter and PI39 speaker are set to the same frequency. Turn on the receiver power and adjust the volume to 10 o'clock. Then turn the speaker power and adjust the volume level to 10 o'clock.

Wireless Microphones

There are two wireless microphone transmitters for use with the PI39; Q319 handheld microphone and M319 beltpack transmitter used with your choice of flexible collar mic (CM-316), headset mic (HBM-316), and lapel mic (LM-316).

Q319

Install battery and switch ON the Microphone. Wait 5 seconds prior to talking into the microphone. Adjust the UHF receiver volume and speaker volume to the desired level.

M319

Install battery. Plug in one of the three available microphones. The M319 has a volume control which should be set at the lowest level before turning on the power. After turning the power ON gradually increase the volume to a comfortable level. As with the handheld microphone there is a 3-5 second delay before transmitting.

Microphone Lockout

Two wireless microphones cannot be used at the same time unless one is turned off while the other is being used. Otherwise the first to be turned on will block out the other.

NOTES Turn the transmitter power switch off when not being used to minimize battery drain.

Specifications

Speaker System (PI39, PI30-PS and PI30-SP)

Power Capacity Sound Pressure Level: Dispersion: Frequency Response: Transducers: Amplifier:	30 Watts RMS power capacity, 6 Ohms impedance 93 dB, 1 Watt @ 1 Meter -3dB @ 120 degrees off axis 250Hz to 12KHz Three each 3.5" Diameter, High Energy Neodymium Magnets (shielded), 10 Watts RMS capacity 3/4" Dia. Voice Coil, 16 Ohm 15 Watts RMS @ 5% THD
Power Source:	100-240 volt AC universal power supply 12 VDC to amplifier
Dimensions:	12" H x 5" W x 4" D
Weight: Speaker Bracket	3 lbs. 1.3 lbs.
Compliance:	Power Adapter CE, C-UL
PI39 Only	
Wireless System	
Receiver:	One 16 channel selectable UHF diversity wireless receivers 902 - 928 MHz. Antennas are hidden internally.
Microphone Transmitters:	Handheld wireless microphone or beltpack transmitters optional.
PI39 and PI30-PS	

Line In	Line level RCA jacks (2) providing for audio input from CD, Tuner, LCD projector via cable.
Line Outs	Fixed and variable, RCA (2).
Mic. In	1/4" jack for microphones with a cable.
